

Animals Sold Requiring Re-Test
i.e purchased for Export including
Northern Ireland, Isle of Man, Shetland and Orkney

- A. Animals sold for export will require re-test before shipment and will therefore have to return home to the Vendor's premises (unless other agreed arrangements have been made) and the required tests conducted as soon as practicable following the Sale:-**

e.g. – Animals sold to go to Northern Ireland must have remained on a single holding of origin for a period of 30 days and must be subjected to a second T.B. test prior to shipment.

- B. The costs of testing, return transit and all other reasonable expenses must be borne by the Purchaser. During the period of testing the animal will remain at the Purchaser's risk. If, however, any animal should fail its test, the sale will become null and void.**
- C. Payment for animals sold under these Conditions must be made by the Purchaser to the Auctioneers on the day of sale who will hold such payments until notice has been received from the Vendor that the animal has passed its final test and is in transit.**
- D. Entries from Exhibitors prepared to offer their animals subject to the above are designated in the catalogue "Eligible for Re-Test".**
